## ABOUT

To put it into terms of simplified complexity, Elanore Swede is 6-pieces of psych/prog weirdness nestled full of ear worms, that can go from catchy synth jams to de-tuned blistering thunder on a dime, while still having time to mix up Latin grooves with spaghetti western licks, post punk vibes, old school punk hat tips, reggae drops, beautiful piano passages, jazz flavors, metal mania, psychedelic improvs, and anything else they can think of to create what is known inside the band circle as “the treatment”. The result, Elanore Swede — whether you like 4 minute bangers or 12 min epics, buckle up, dig in, enjoy trip

## NOTES
